

Let's clear the air. Literally.

There are some myths and misperceptions about facility cleanliness. Like the notion that wiping down surfaces is enough. It isn't. To get to next-generation clean, you have to remove contaminants from the air. And that's where we come in.

Because cleaner air means a cleaner facility.

Get **AeraMax[®] Professional** commercial-grade air purifiers.

- ✓ Removes 99.9% of allergens and viruses using True HEPA filter
- ✓ Significantly reduces odors and VOCs
